*Full Stack Development Certificate*

**Dallas College - North Lake Campus** **Dallas, TX**  
*Associates of Applied Science - Business Administration*

## CERTIFICATIONS

**Coursera - Google** **Remote**  
*Project Management Certificate*

## PROJECTS

**Tech Blog** *HandleBars / Bootstrap / Express.js / MySQL / Node.js*

- Fullstack social media platform that authenticates users using bcrypt by username and email. Users can add, edit and delete posts that are all handled in the MySQL database.

**Money Manager** *MongoDB / Express.js / React / Node.js*

- MERN Stack application allows users to add and delete everyday transactions. Users can view total assets, income, and expenses. Users can name the transaction and add the value.

**Titan Tickets** *HTML / CSS / JavaScript*

- Fetching data from the Ticketmaster API. Allows users to search upcoming concerts by city and store their favorites in a separate tab. Users can go directly to the ticket floor map and also shows similar artists

**Crypto Coffee** *React / Tailwind / Firebase*

- Frontend React application that allows users to search for current crypto prices and basic coin data. It is an easy one stop shop for a quick morning update. It uses Firebase for user authentication using their Gmail account.

**Feedback App** *React / Tailwind / Firebase*

- Frontend React application form that takes in a rating from 1-10 and also a comment input that is stored into a Firebase database. It adds together total comments and averages out the rating.

## WORK EXPERIENCE

**DoorDash/DashMart** **Irving, TX**  
*Operations Associate* *January 2022 - Present*

- Participate in helping launch new vertical programs.
- Receive, sort, and dispatch over 2,500 packages daily while managing batch accuracy and team organization.
- Maintain inventory accuracy on over \$100k worth of product inventory.

**Smart City Apartment Locating** **Dallas, TX**  
*Apartment Locator* *January 2021 - November 2021*

- Create personalized lists of apartment options to fit my clients needs and available units.
- Communicate with clients and keep them informed, educated and taken care of in the apartment finding process. Schedule in-person & virtual tours for clients. Reach out to properties for exact details on their behalf.
- Manage 50+ clients at any given time. Assist over 75 individuals to find a new home. Over \$80k in gross revenue.
