PROJECTS

Tech Blog   *HandleBars / Bootstrap / Express.Js / MySQL / Node.Js*
- Fullstack social media blog. Once logged in users can post and view other users posts on the main feed. On their profile they can manage their posts allowing them to edit & delete. Users must create an account for authentication.

Money Manager   *MongoDB / Express.JS / React / Node.Js*
- MERN Stack application allows users to add and delete everyday transactions. Users can view their current balance, income, and expenses. Users can name the transaction and add the value. Transactions are listed in a quick view format where they are color labeled for a clean UI.

Titan Tickets   *HTML / CSS / JavaScript*
- Vanilla JS app that users can search for any city worldwide and see what concerts are coming up. It allows users to save their top choices and includes a link directly to the venue map to select tickets. It also shows similar artists to expand their playlists.

Crypto Coffee   *React / Tailwind / Firebase*
- Frontend React app using Firebase for google authentication that allows users once logged in to search for their favorite crypto. It displays the current coin price and gives a price change update over the last 24 hours.

World Cup Today   *React / CSS*
- Frontend React app that is a quick informational site for the 2022 Qatar World Cup. It informs users of the team groups & also tracks the group stage points as well as player statistics for goals and assists using.

WORK EXPERIENCE

DoorDash/DashMart   **Irving, TX**
Fulfillment Lead   *January 2022 - Present*
- Manage a team in ensuring the quality of work is efficient and we're hitting our metrics.
- Receive, sort, and dispatch over 3,000 packages daily while managing batch accuracy and team organization.
- Coordinate with support team for any dispatch or sortation issues to minimize any distribution inaccuracies.

Smart City Apartment Locating   **Dallas, TX**
Apartment Locator   *January 2021 - November 2021*
- Create personalized lists of apartment options to fit my clients needs and available units.
- Schedule in-person & virtual tours for clients. Reach out to properties for exact details on their behalf.
- Assist over 75 individuals to find a new home. Over $80k in gross revenue.
